**1.4.2 How the feedback obtained is being analyzed and utilized for overall development of the institution? (2019-20)****Feedback:**

Hardly a more reliable and essential tool for running the college on satisfactory lines exists than the feedback system. The administration looks at student and parent feedback with all the respect it deserves and implement them in all earnestness. The feedback has proved to be an excellent guideline in the efficient and meaningful running of the institution. Vocational courses were started following SWOC expressed by the stakeholders namely students, teachers, parents and alumni. The feedback ranges from students' desire to resolve conflicts to holding more tutorial classes to help slow learners. The college considers student feedback most empathetically and the tutorial and regular classes have become venues for establishing very close and personal relations where teachers in addition to teaching take acute interest in solving personal problems such as financial difficulties, fee difficulties. Many students report their admiration for the intense and excellent quality of teaching of many teachers. Women students suggest improvement in hygienic levels of toilets and restrooms and their opinions have been accepted. The management earnestly welcomed their opinions and acted upon them at once. Many parents have sent messages and spoken during parent, student and teacher interactions, about the nobility, earnestness and student centric atmosphere of the campus. The opinions in general reflect the awe in which the founder of RES beloved S Kariyappa is held, and their admiration for the sincerity of the management in upholding the cherished vision of the founder.
