HISTORY OF THE RURAL COLLEGE, KANAKAPURA

The economic progress and upliftment of the taluk cannot be viewed in isolation as the founding of this college has been a major contributing factor. The great visionary Poojya Sri S. Kariyappa had realized at even a tender age that education and literacy were the only panacea that had the power to redeem the people of this southern most taluk from darkness and misfortune of the absence of schools and colleges. Himself an ardent admirer and practitioner of English he laid the foundations of what is today an outstanding centre of learning. Started way back in 1955 the Rural College was at that time among only a handful of colleges that existed in addition to the famous Govt. colleges like the Maharaja's College of Mysore, and the Central College at Bangalore, Shivamogga, Tumkur and a couple of them, few and far between, were where the children of affluent families sought higher education. Hence, the sole objective of our institution is to provide quality education to the rural poor students and to uplift them in all spheres of life especially in socio-economic arena. As a result, thousands of our rural students are placed in every field and leading comfortable and luxurious life.

HISTORY OF ECONOMICS DEPARTMENT

The Department of Economics of Rural College has naturally been among the oldest ones, and succeeded in holding on to its supremacy in matters of teaching and leadership in the academic as well as administrative fields of the institutions. The department has over the years acquired a pre-eminent stature as the brain centre.

VISION AND MISSION OF OUR COLLEGE

VISION:

To offer educational opportunities which provide information and skill and also imbibe scientific temper essential for meeting the diverse needs of living in the era of globalization and to inculcate creativity among students to face the challenges of a world full of relentless competition.

MISSION:

To strive in all respects to make Rural College Kanakapura a campus of excellence by relentless efforts for continuous improvement of the personality of students to face the challenges of life.

PROGRAM EDUCATIONAL OBJECTIVES:

- Connect concepts that are not obviously related or understand ideas that are counterintuitive.
- Recognize ambiguity and develop healthy skepticism
- Address misperceptions, preconceptions and misconceptions by creating new knowledge
- Make connections across disciplines and fields within economics
- Compare multiple perspectives of an issue by identifying diverse dimensions, including social justice, social welfare and social & environmental responsibility
- Communicate ideas in writing and conversation with varied audiences
- To gain an understanding of core economic principles and how they apply to a wide range of real-world issues.
- To master the theoretical and applied tools necessary to critique and create economic research.
- To learn how to articulate pragmatic, principles-based policies to enhance economic well-being and promote social justice.

- To become familiar with salient developments in the world economy, in both present-day and historical contexts.

PROGRAM SPECIFIC OUTCOMES:

PSOs are the measurable statements of the subject that brings desirable results. PSOs are also known as student learning outcomes (SLOs). An economics degree gives you a high level of mathematical and statistical skills and the ability to apply economic principles and models to problems in business, finance and the public sector. More broadly, economic concepts can be applied to understand the logic of complicated data, to see how things relate to each other, and to see the broader context.

The following are the specific outcomes of Economics course:

- To gain an understanding of core economic principles and how they apply to a wide range of real-world issues.
- To master the theoretical and applied tools necessary to critique and create economic research.
- To learn how to articulate pragmatic, principles-based policies to enhance economic well-being and promote social justice.
- To become familiar with salient developments in the world economy, in both present-day and historical contexts.
